 GitHub: <https://github.com/AbeeraUmail>

 LinkedIn: <https://www.linkedin.com/in/abeera-u-4377a8296/>

PROFESSIONAL SUMMARY

Frontend Developer with hands-on experience building modern, responsive, and scalable web applications using **React.js, Next.js, TypeScript, and Tailwind CSS**. Experienced in developing user-centric interfaces, integrating REST APIs, implementing secure authentication, and collaborating on full-stack products from planning through deployment. Cofounder at Wewise Labs with practical exposure to cloud-native development, AWS deployments, Docker-based workflows, CI/CD automation, and AI-powered applications. Passionate about building performant user experiences and continuously learning modern frontend technologies.

TECHNICAL SKILLS

Frontend

- HTML5
- CSS3
- Tailwind CSS
- JavaScript (ES6+)
- TypeScript
- React.js
- Next.js
- Responsive Web Design

- Component-Based Architecture
- API Integration
- UI/UX Development

Backend Technologies (Working Knowledge)

- Node.js
- Express.js
- FastAPI
- Prisma ORM
- REST APIs
- Swagger/OpenAPI
- JWT Authentication
- OAuth

Testing & QA

- Manual Testing
- REST API Testing
- Swagger (OpenAPI)
- Postman
- Bug Reporting
- Regression Testing
- API Validation
- Functional Testing

Databases

- PostgreSQL
- MySQL
- MongoDB

Cloud & DevOps

- AWS Cloud Fundamentals
- Docker
- Amazon ECR
- AWS Lambda
- Amazon S3
- Amazon CloudFront

- GitHub Actions (CI/CD)
- Git
- GitHub

AI & Productivity

- Microsoft Copilot Studio
- Dialogflow
- AI-assisted Development (**GitHub Copilot, Claude Code**)
-

Tools

- VS Code
- Figma
- Canva

PROFESSIONAL EXPERIENCE

Cofounder & Full Stack Developer

Wewise Labs | 2025 – Present

- Develop modern web applications with a strong focus on responsive frontend architecture using React, Next.js, TypeScript, and Tailwind CSS.
- Collaborate on product planning, feature implementation, and technical decision-making across AI-powered and SaaS products.
- Design clean, accessible, and performant user interfaces optimized for desktop and mobile devices.
- Integrate frontend applications with backend APIs while maintaining reusable and maintainable code.
- Contribute to deployment workflows and modern development practices using GitHub and Docker.

QA Tester

Techverse51 | 2025 – Present

- Performed manual testing of the Learning Management System (LMS) backend by validating REST APIs using **Swagger (OpenAPI)** and **Postman**.
- Executed API testing for authentication, request/response validation, input validation, error handling, and business logic verification.
- Identified, documented, and reported defects, working closely with developers to reproduce issues and verify bug fixes.
- Performed regression testing to ensure new changes did not impact existing functionality.
- Verified backend endpoints against functional requirements before release.
- Collaborated with the development team to improve API quality and application reliability.

FEATURED PROJECTS

Wise Manager — Full Stack Project Management Platform

Full Stack Developer

- Contributed to the project from its inception using Specification-Led Construction (SLC) and specification-driven development practices.
- Participated in architecture discussions, technology evaluation, and technical decision-making.
- Built responsive dashboards, authentication flows, and task management interfaces using **Next.js, TypeScript, and Tailwind CSS**.
- Integrated frontend with backend REST APIs while implementing secure authentication using JWT and OAuth.
- Collaborated on backend services using **FastAPI, Prisma, and PostgreSQL**.
- Assisted in deploying the application to AWS using **Docker, Amazon ECR, AWS Lambda, Amazon S3, and CloudFront**.
- Contributed to GitHub Actions CI/CD workflows for automated build and deployment pipelines.
- Worked closely with designers and developers to improve UI/UX, performance, and overall user experience.

Technologies: Next.js, React, TypeScript, Tailwind CSS, FastAPI, Prisma, PostgreSQL, JWT, OAuth, Docker, AWS, GitHub Actions

Coloriqo — AI-Powered Color Palette Generator

- Developed responsive frontend interfaces for an AI-powered application that extracts color palettes from uploaded images.
- Built intuitive user experiences with modern React and Next.js development practices.
- Focused on accessibility, responsiveness, and smooth user interactions.

Technologies: React, Next.js, TypeScript, Tailwind CSS

Techverse51 — Educational Platform

- Built responsive and accessible interfaces for an educational platform serving aspiring developers.
- Collaborated with the team to deliver modern frontend experiences focused on usability and performance.

Technologies: React, Next.js, TypeScript, Tailwind CSS

Abeera Studio — E-commerce Platform

- Developed responsive shopping experiences including product browsing, shopping cart, and checkout interfaces.
- Focused on delivering a seamless customer experience across desktop and mobile devices.

Technologies: Next.js, React, Tailwind CSS

Wewise Labs — Company Portfolio Website

- Designed and developed the company website showcasing AI SaaS and web development services.
- Built reusable UI components and responsive layouts optimized for multiple devices.

Technologies: Next.js, TypeScript, Tailwind CSS

AWS HANDS-ON EXPERIENCE

- Completed AWS Builder Labs with practical experience in IAM, EC2, VPC, Security Groups, Amazon S3, CloudWatch, and CloudTrail.
- Participated in deploying applications using Docker, Amazon ECR, AWS Lambda, CloudFront, and GitHub Actions CI/CD workflows.
- Gained hands-on experience with cloud deployment, monitoring, networking fundamentals, and security best practices.

CERTIFICATIONS

- **AWS Cloud Essentials** — Amazon Web Services (2026)
- **AWS Builder Labs – Introduction to AWS Cloud** (*Hands-on Learning Plan*) (2026)
- **Microsoft Copilot Studio Training** — Techverse51 (2024)

PROFESSIONAL TRAINING

MERN Full Stack Web Development with Next.js & GenAI (*In Progress* — 2026)

NexusBerry Training & Solutions

Core Technologies

- React 19
- Next.js 16
- TypeScript
- Node.js
- Express.js
- MongoDB
- DevOps
- AI-powered Development
- Cloud Fundamentals

TEACHING EXPERIENCE

Lecturer / Instructor

- Delivered workshops on Frontend Development and Microsoft Copilot Studio.
- Mentored students through hands-on projects and real-world development scenarios.
- Developed structured learning materials, tutorials, and project guides.

LANGUAGES

- English
- Urdu
